Part Number: EV-2100

digital life ... addlogix style

ADDLOGIX PRODUCT INFORMATION SHEET

InternetVue 2100
Wireless PC2TV Receiver, DVI/VGA Edition
MSRP: \$249.00

Description:

Addlogix's newest **InternetVue 2100** is a PC2TV adapter that connects to TV or other display's DVI/VGA input and enables a computer to stream video to the display without any cable. Unlike other products in the market, **InternetVue 2100** is Codec independent. This means video clips such as browser-based streaming movies, YouTube.com clips, digital photo slide shows, PowerPoint presentations can all be watched on TV or other DVI/VGA displays such as projectors.

With **InternetVue 2100**, instead of restricted to the computer's screen, digital video can now be enjoyed on the big screen TV. When conducting business presentations, presenters no longer are limited by the cable length from the computer to the projector.

Features:

- View the following contents on TV
 - downloaded movies
 - web-cast or streaming video
 - digital photos, slide shows
 - Internet
 - Word document, Excel files, PowerPoint
- Simple hot-spot like setup
- Compatible with DVI and VGA video displays
- Best in class video performance
- Patented lossless Codec up to 1024 x 768 resolution
- Firmware upgradeable
- Wirelessly streams all current and future video and audio formats (codex agnostic)
- Security settings available in: 1) None, 2) WEP: 64/128 bit-Hex or 64/128 bit ASCII, 3) WPA2PSK
